

Snow Plow Policy for Village of Bonduel – Municipal Operations Department

Damage to Mail Box

If it's determined that a village plow struck the mailbox, the Village of Bonduel will install a temporary mailbox and replace it with a standard black/white mailbox and a treated 6ft 4x4 post in the spring.

The Village of Bonduel isn't responsible when the damage is caused by snow flying off the plow, or in cases where the mailbox is attached to a rotten post or was poorly placed/installed.
